---

Dear Janet Gu,

Thank you for your email. I will include your comment in the record.

The City received seven (7) appeals for the 17PLN-00169 Vinculums/Verizon Cluster 1. The appeals are scheduled for a public hearing before the City Council on Monday, May 21, 2018. The City normally employs a two-step appeal process, in which the City Council is first asked to uphold the Planning Director's decision on its consent calendar, and a public hearing is only scheduled upon request of the City Council. Given the significant public interest in these applications, staff has elected to forgo the consent calendar process and schedule the appeals for a hearing in which the Council may take public testimony and uphold, overturn, or modify the Director's decisions on the nodes.

The Planning Department remains in the process of accepting and compiling written public comments on an ongoing basis on 17PLN-00169 and associated appeals.

In case it is of interest, City Council Agendas, City Manager Reports, and other materials are available here - https://www.cityofpaloalto.org/gov/depts/cou/council_agendas.asp. The City Council Procedures and Protocols Handbook is available here - https://www.cityofpaloalto.org/civicax/filebank/documents/34330.

Regards,

Rebecca

Dear Staff:

- I believe the Director's decision to allow Verizon to install hundreds of pounds of

cheap, ugly equipment on poles within a few yards of residents' homes was not correct.

- Verizon's claims that it cannot underground its equipment are not credible (Palo Alto will be undergrounding its utilities throughout the Cluster 1 neighborhoods, so surely Verizon can underground its equipment there as well). And
- Please grant approval to Verizon to install its cell towers *only* on the condition that the company locate all of its equipment, except the antenna, underground in flush-to-the-ground vaults with no protuberances (this is what sophisticated cities are now requiring of the telecom industry).
