Dear Colleen Crangle,

Thank you for your email. I will include your comment in the record.

Additionally, the City received seven (7) appeals for the 17PLN-00169 Vinculums/Verizon Cluster 1. The appeals are scheduled for a public hearing before the City Council on Monday, May 21, 2018. The City normally employs a two-step appeal process, in which the City Council is first asked to uphold the Planning Director's decision on its consent calendar, and a public hearing is only scheduled upon request of the City Council. Given the significant public interest in these applications, staff has elected to forgo the consent calendar process and schedule the appeals for a hearing in which the Council may take public testimony and uphold, overturn, or modify the Director's decisions on the nodes.

The Planning Department remains in the process of accepting and compiling written public comments on an ongoing basis on 17PLN-00169 and associated appeals.

In case it is of interest, City Council Agendas, City Manager Reports, and other materials are available here - https://www.cityofpaloalto.org/gov/depts/cou/council_agendas.asp. The City Council Procedures and Protocols Handbook is available here - https://www.cityofpaloalto.org/civicax/filebank/documents/34330.

Regards,

Rebecca

Subject: Verizon's Cluster 1 project

City Council:

I am writing to ask you to remove Verizon's "Cluster 1" project (17PLN-00169) from the

Consent Calendar so that Palo Alto residents may have an opportunity to voice their opinions of Verizon’s plans directly to their elected representatives.

I do not support the Director of Planning’s decision to approve Verizon’s applications to install its first wave of cell towers. I ask in the strongest possible terms that you approve Verizon's cell towers only on the condition that they locate all of their equipment, except the antenna, underground in flush-to-the-ground vaults with no protuberances. We deserve the right to keep Palo Alto’s residential streets aesthetically pleasing.

Sincerely,

Colleen Crangle
