Subject: Verizon Cell Towers in Residential Neighborhoods

Dear City Council,

Please reverse the earlier decision to allow Verizon to install cell towers in residential neighborhoods.

Verizon is not credible in its claim that they cannot underground their equipment as they have done so in other neighborhoods in other cities. Palo Alto has also placed equipment underground.

Only grant their request if they can install all of their equipment underground (except antennas) and they do not exceed noise limits.

Thank you.

Annette Rahn
