---

Dear Celia Chow,
Per your request for information on the shot clock/tolling agreement for Cluster 2, we have received a new tolling agreement. The basic near term effect is that the shot clock processing timeframe doesn't start again until the applicant team resubmits (date unknown, but after the City Council discussion May 21) Cluster 2 application materials.
Regards,
Rebecca

Dear Celia Chow,
The current tolling agreement for WCF permit application Cluster 2 (17PLN-00170) is still in effect (extends until April 30, 2018). The current project plans and application materials are from October 2017. I am awaiting a copy of an updated tolling agreement, as the applicant has indicated that they want to resubmit, given the ARB feedback the applicant heard during review of Cluster 1.
Regards,
Rebecca

Hi Rebecca,

Happy Friday to you!

Is there an ARB meeting scheduled for Cluster 2 considering the expiration date for the shot clock is April 30th?

Thanks!

Celia
