RE: PUBLIC RECORDS REQUEST of April 24, 2018, Reference # W001226-042418

Dear ,

I am writing in response to your requests for documents under the California Public Records Act (Govt. Code § 6250 et seq.) received by the City on 4/24/2018.

Your request mentioned From: Paul McGavin

Subject: Close Proximity Microwave Radiation Antennas (CPMRA) in Palo Alto's residential zones

Hi, Rebecca.

I have a few follow up questions -- how do we get access to the mailing list to whom the City of Palo Alto mailed notices for all Clusters that are facing installation of Close Proximity Microwave Radiation Antennas (CPMRA) in Palo Alto's residential zones? Will you please confirm that the mailing list is part of the public record?

Also, will the City of Palo Alto planning staff now, finally. have the time to answer the many reasonable questions that you and others in the City of Palo Alto Planning Department have refused to answer since 12/6/17? You have a list of these unanswered questions in the public record.

If you are having any problem locating these questions, then please email to let me know that and I I will send them again.

**In response to your recentrecords request referenced in the email below and in the attached correspondence,please find the attached PDF files for the appealed Cluster 1 Vinculums/Verizon(File 17PLN-00169). Address lists for mailings are public records. Theseresponsive records are the scans directly from File 17PLN-00169 of the fournotices, affidavits, and mailing lists from 17PLN-00169 – May 26, 2017;November 20, 2017; February 28, 2018, and March 26, 2018.**

**Reminder: If you plan to visitthe 5th floor to review the Cluster 1 Vinculums/Verizon file (File17PLN-00169), please make an appointment. Your review of the file would requireoversight by an attendant (who will not able to answer questions regarding theproject). We do not allow file reviewers to remove documents from a file - youmay flag (with sticky notes) any pages you wish to be copied. Support staff canprepare any copies (subject to a copying fee) to make them available forpick-up within 10 days of your office visit (if the volume of copies isreasonable). If there are any other project files you wish to**

**review inperson, please do make an appointment. This allows staff to be ready witha specific file.**

**The City Council staff report isbeing prepared regarding the appeals of Vinculums/Verizon Cluster 1. Yourquestions are in the public record that Council will be reviewing. Whilethe report may not answer all of your questions, it will contain what isrequired to allow a Council decision.**

**Please log in to the Records Center at the following LINK to retrieve the appropriate response.**

**If you have any questions, or wish to discuss this further, please contact me.**

Sincerely,

Yolanda Cervantes
