Subject: Please do not approve latest proposal by Verizon

To ARB,

Please do not approve Verizon's cell towers unless all the equipment, except the antenna, are undergrounded and does not violate our noise ordinances.

They're making excuses for not doing so by saying Palo Alto is in the flood zone for a once in a 500 year chance of flood - and it's is ridiculous. If ARB think it's a valid reason, we shouldn't have any electrical equipment on poles - esp when a flood can topple the poles and cause fires to surrounding trees and home.
