Dear Hal Jerman,

Thank you for your email. I will include your comment in the record.

Additionally, the City received seven (7) appeals for the 17PLN-00169 Vinculums/Verizon Cluster 1. The appeals are scheduled for a public hearing before the City Council on Monday, May 21, 2018. The City normally employs a two-step appeal process, in which the City Council is first asked to uphold the Planning Director's decision on its consent calendar, and a public hearing is only scheduled upon request of the City Council. Given the significant public interest in these applications, staff has elected to forgo the consent calendar process and schedule the appeals for a hearing in which the Council may take public testimony and uphold, overturn, or modify the Director's decisions on the nodes.

The Planning Department remains in the process of accepting and compiling written public comments on an ongoing basis on 17PLN-00169 and associated appeals.

In case it is of interest, City Council Agendas, City Manager Reports, and other materials are available here - https://www.cityofpaloalto.org/gov/depts/cou/council_agendas.asp. The City Council Procedures and Protocols Handbook is available here - https://www.cityofpaloalto.org/civicax/filebank/documents/34330.

Regards,

Rebecca

I have no idea what the Luddites might have been screaming at you, but most of the good citizens of Palo Alto are looking forward to better wireless data access. I am happy that I live close to one of the proposed cells.

Hal Jerman
