Thanks for your help, Rebecca.
Best,
Janice

Hello Janice,
Thank you for our conversation today.
I've attached a copy of the project description (dated 06/27/18) for 17PLN-00143 that includes a vicinity map. Any streetlight they are proposing to use should have a white notice board. The streetlights proposed for use right now that are closest to you are at the corner of Gillman/Forest and Waverly/Homer.
Regards,
Rebecca

I received a postcard from the city in today's mail, and assume the legal deadline is still in force, and therefore am directing the inquiry to you. When you have the information, please forward it to us.

Thank you.

Hello John Kenney and Janice Berman.

Thank you for your email.

I had a 10 day legal deadline for reviewing the resubmittal for both 17PLN-00433 and 17PLN-450.

I am the Project Planner, but not the applicant. So, to clarify, I'm not requesting permission and it is the applicant filing and requesting. The applicant for both is Crown Castle/Verizon and I can send you their contact information on Monday so you can reach out to them directly if you choose.

I just finished the 10 day legal deadline today and determined that 17PLN-00433 remains incomplete due to information like what you are inquiring about. I don't have the precise information that you are requesting yet, but that will be forthcoming from the applicant team. When I get back to the office on Monday, I will now have time to upload the plans to the project website that I deemed incomplete, if that helps. I did already upload the resubmittal to the permit tracking system, so it is possible to go there to see how the plans changed over time.

Regards,

Rebecca
