Subject:	Cell relay on light at 345 Forest Av with a large box next to a prime historic location
Date:	Tuesday, July 03, 2018 1:10:48 PM

Warm hello,

I do wish to come back to you today with a plea - that you will not allow the placement of cell relay on light at 345 Forest Av as it includes a large box next to be added next to this street light. Note that people daily are taking pictures of the 1930s building from the street and such a box will block the view - sure it is not a "huge" box in the eyes of the people trying to set it up. The reality is that it changes the view of the fountain. Have a walk over to my courtyard and see for yourselves!

With respect and warm regards,

Ardan Michael Blum
