Annual Review of Municipal Fees

The City charges fees for a variety of services provided, such as fees for room rentals, building inspection services, and photocopies. As part of the annual budget process, the City's Municipal Fees are reviewed to ensure that fees are set in accordance with applicable federal and state laws, in addition to the City of Palo Alto User Fee Cost Recovery Level Policy. City departments review their fees for services and make recommendations to Office of Management and Budget (OMB) to add new fees, delete existing fees, and make changes to existing fees. In coordination with departments, OMB staff review amendments to the Municipal Fee Schedule to ensure that fees are consistent with applicable policies and procedures. As part of best practices and to support continued alignment with cost recovery goals, the City completed two separate cost of service studies in FY 2025 – one for development-related services and another for all other city departments, reflecting a comprehensive review of the City's fee structure. Amendments to the Municipal Fee Schedule are submitted to the Finance Committee for review and discussion during the annual budget process, prior to being recommended for adoption by the City Council. The Fiscal Year 2026 Municipal Fee Schedule was adopted by the City Council on June 16, 2025.

Cost Recovery

Some fees are subject to limits under Proposition 26, which requires that the amount of the fee must be “no more than necessary to recover the reasonable costs of the government activity, and that the manner in which those costs are allocated to a payor bear a fair or reasonable relationship to the payor's burden on, or benefits received from, the governmental activity. California Constitution, Article XIII C, Sec. 1(e). Other types of fees, such as fines, penalties and/or late charges, or charges imposed for entrance to or use of, as well as the purchase, rental, or lease of local government property, are expressly exempted from the provision quoted above and not required to be based on actual costs of providing service. Instead, policymakers may consider local market rates, reasonableness, and other policy factors in setting fee levels. Fees such as facility rental fees, or golf course greens fees fall into this category.

Understanding the Municipal Fee Schedule

The Municipal Fee Schedule provides a detailed listing of fees by department. Fees that are not specific to a particular department are found in the Citywide section. In each department section, fees are broadly divided by service area or division. In each section table, fees are further grouped by activity or service in alphabetical order. Each fee is listed along with the City Council adopted rate for the current fiscal year. Certain fees have multiple rates based upon residency, non-profit status, or regular/overtime rates. These tiered fees are listed where appropriate. The Municipal Fee Schedule does not include fees for the Palo Alto Airport, nor does it include information about the Electric, Fiber, Gas, Refuse, Stormwater, Water, and Wastewater Collection rates. For more information regarding these rates, please visit the City of Palo Alto website at: <https://www.paloalto.gov/Departments/Utilities/Customer-Service/Utilities-Rates>.

PALO ALTO

Spanish explorers named the area for the tall, twin-trunked redwood tree they camped beneath in 1769. Palo Alto incorporated in 1894 and the State of California granted its first charter in 1909. The City has long been known for its innovative people and its exploration of ideas that have changed the world. In Palo Alto, our history has always been about the future.
