#### **AGENDA**

- Welcome and Introductions
- Overview of Stakeholder Polling and Survey Results
- Review Streetscape Concept Plan
- Downtown Updates
- Project Timeline and Next Steps

# Stakeholder and Community Polling Results

# Stakeholder Working Group Polling Results (9/10/24)

- **70**% agreed with the Council approved Goals, **50**% agreed with the Council approved Vision.
- 60 % preferred option B (Q9) "Full Scope between High and Cowper Streets and Reduced Scope between Cowper and Webster Streets with a budget of about \$43 +/- million.
- Seating and Public Gathering Spaces, Landscaping, and Bike Parking selected as top 3 sidewalk corner elements.
- Lytton Plaza, High Street Gateway, and Centennial Alley selected as top 3 focal gathering spaces.
- Interpretive history and technology exhibits, History walk, and Gateway elements identified as **top 3** ways to highlight Palo Alto as "Birthplace of Silicon Valley."
- 75% said special events should be held between Ramona and Waverley Streets.
- 42% selected frequency of special events as between two and five times a year, 25% selected between six and ten times a year.

## **Results Community Survey**

As of November 7, 2024, 156 responses to the online survey. Of those, about 21% identified themselves as Palo Alto residents. A summary of responses below.

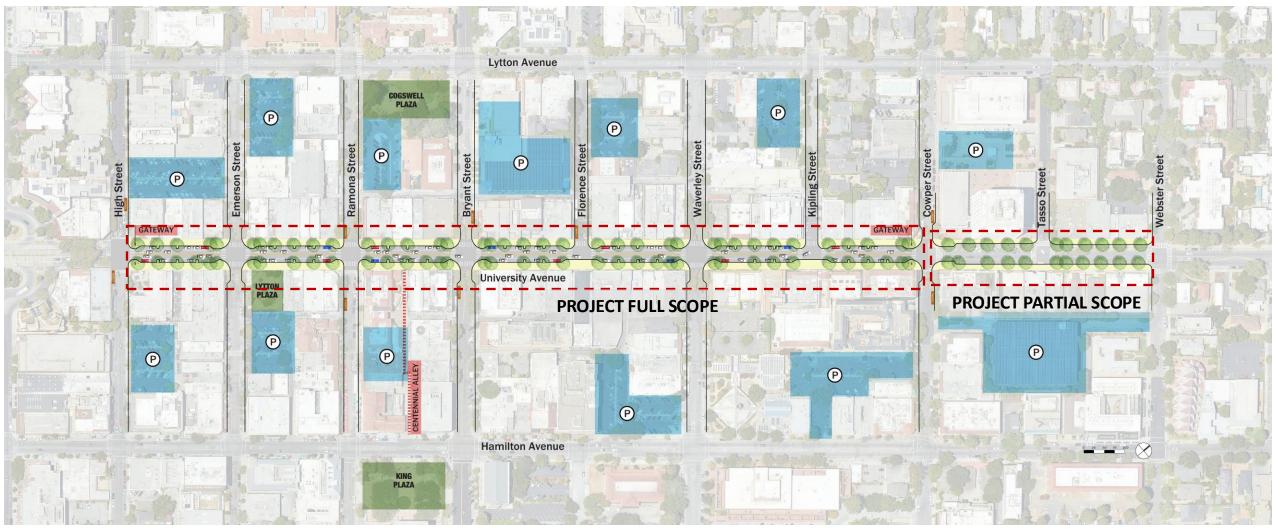

- Improving the pedestrian experience and creating outdoor opportunities for dining and retail identified as the **top two** priorities for this project.
- Landscaping, Bike Parking, and Seating and Public Gathering Spaces identified as **top three** elements for extended sidewalk corners.
- Lytton Plaza, Historic Ramona Street, and Centennial Alley identified as top three locations for focal gathering spaces
- Murals, Special Events, and History Walk identified as **top three** elements to best highlight Palo Alto as the Birthplace of Silicon Valley

# PROPOSED STREETSCAPE CONCEPT

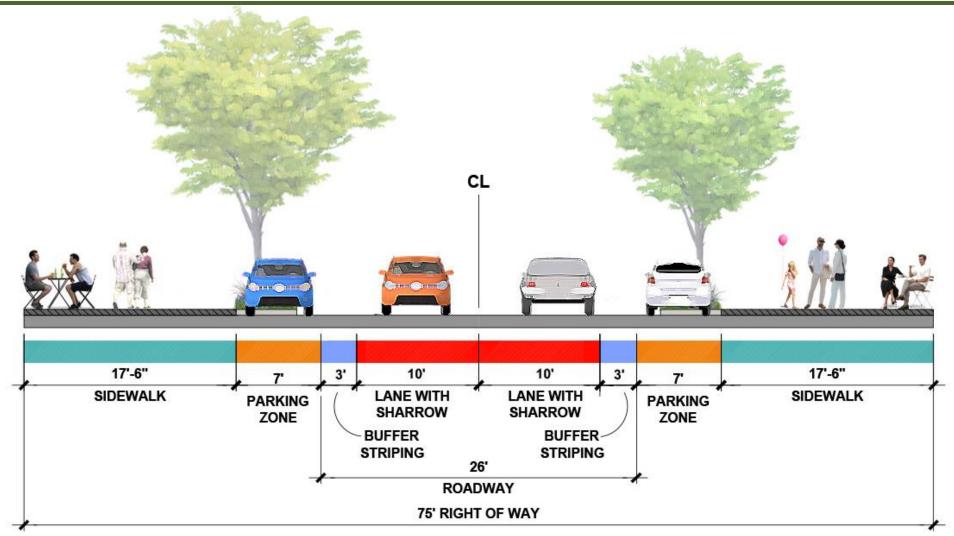

#### PROPOSED STREETSCAPE CONCEPT

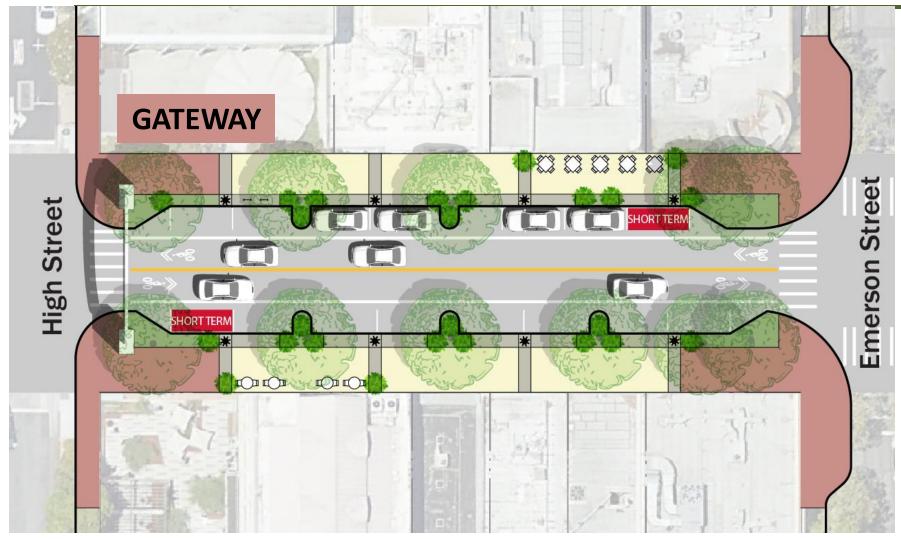

# **CONCEPT PLAN: Typical Section between High and Cowper Streets**

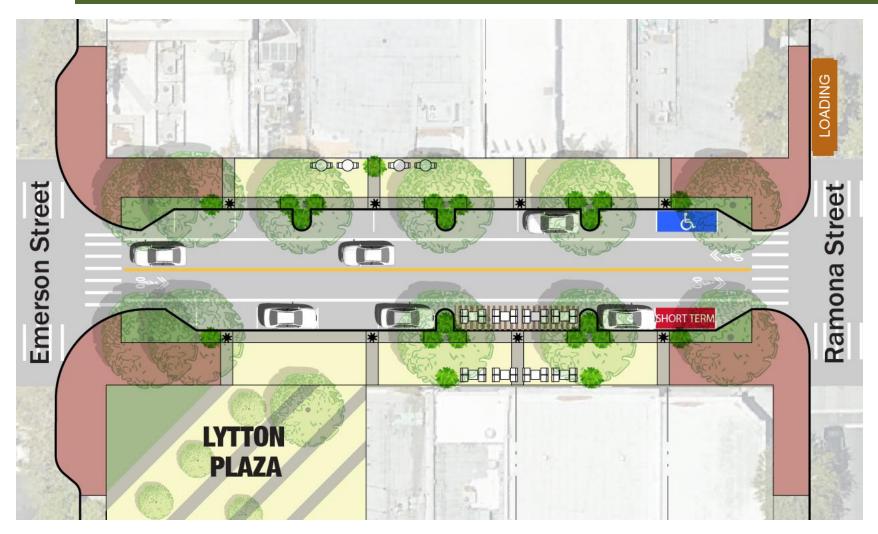

# **CONCEPT PLAN:** Between High and Emerson Streets

Item	Number
Existing Parking	20
Proposed Parking	16
Existing Parklets	0

#### **CONCEPT PLAN: Between Emerson and Ramona Streets**

Item	Number
Existing Parking	18
Proposed Parking	16
Existing Parklets	1

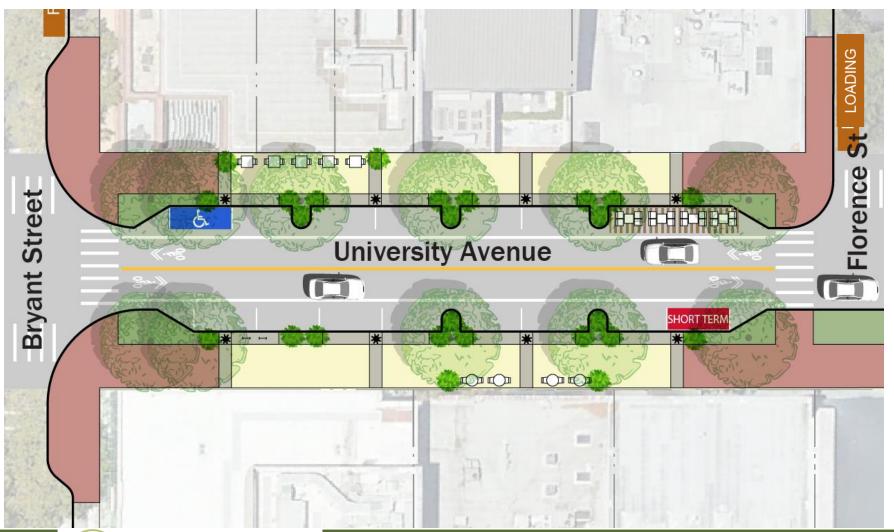

## **CONCEPT PLAN: Between Ramona and Bryant Streets**

ltem	Number
Existing Parking	20
Proposed Parking	16
Existing Parklets	2

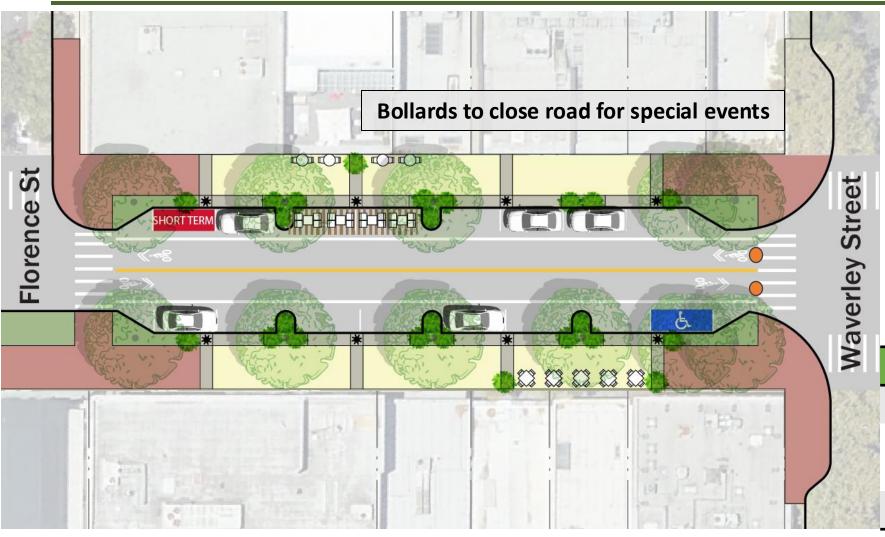

## **CONCEPT PLAN:** Between Bryant and Florence Streets

Item	Number
Existing Parking	20
Proposed Parking	16
Existing Parklets	1

### **CONCEPT PLAN:** Between Florence and Waverley Streets

ltem	Number
Existing Parking	19
Proposed Parking	16
Existing Parklets	1

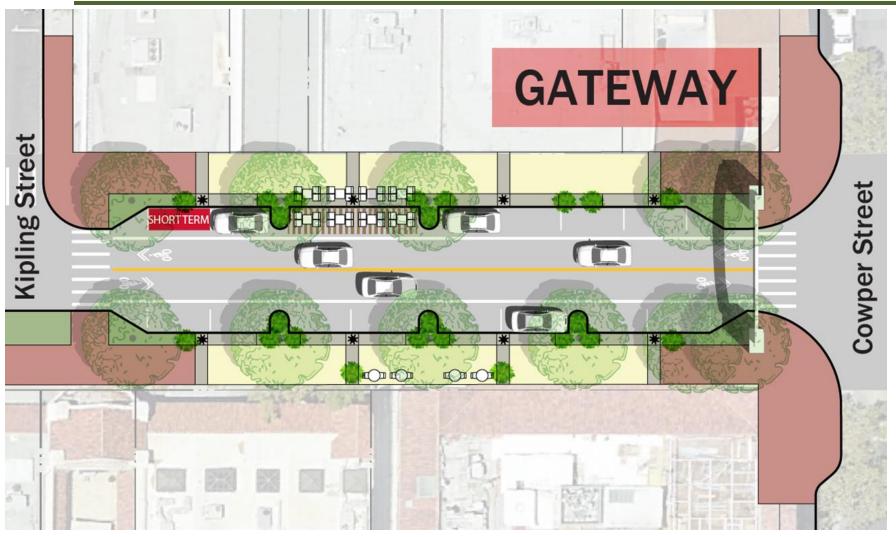

# **CONCEPT PLAN: Between Waverley and Kipling Streets**

ltem	Number
Existing Parking	19
Proposed Parking	16
Existing Parklets	1

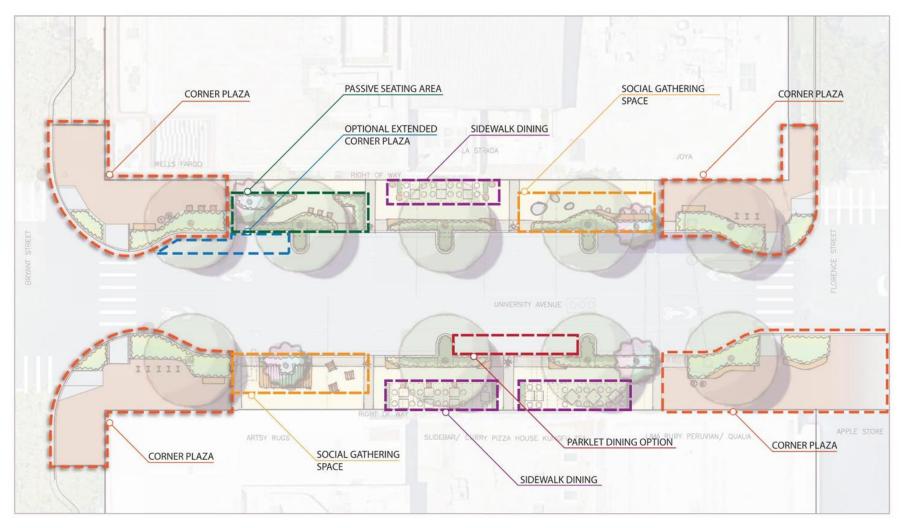

# **CONCEPT PLAN:** Between Kipling and Cowper Streets

ltem	Number
Existing Parking	18
Proposed Parking	16
Existing Parklets	1

# **CONCEPT PLAN: Illustrating Various Streetscape Elements**

#### **ON-STREET PARKING SUMMARY**

Number of On-Street Parking Spaces	Existing	Proposed
Total Spaces on University Ave. between High and Webster Streets	177	155 (Est.)
Spaces Occupied by Parklets	18	TBD
Available Spaces	159	TBD*
Short Term Spaces (Included in total number)	11	11
Accessible Spaces (Included in total number)	0	6

<sup>\*</sup> Per Council direction, at least one-third of on-street parking spaces shall be retained; this would determine maximum number of parking spaces taken for parklets.

Wider sidewalks that accommodate outdoor dining and retail, combined with smaller parklet footprints in parallel parking spaces may result in fewer businesses opting to build parklets.

#### **ON-STREET PARKING STRATEGY**

Assuming the loss of up to two-thirds of on-street parking spaces within the project limits, the loss of on-street parking would be offset by parking garages and surface lots. Table below demonstrates adequate parking capacity.

#### **Downtown Parking Garages and Lots: % of Parking Occupancy**

Time Period	12 PM	3 PM	6 PM
Weekday 2017*	87%	79%	69%
October 2023 (Weekday)	56%	48%	36%

<sup>\* 2017</sup> reflects peak parking volumes in downtown.

- Ongoing Parking studies
- Automated parking and wayfinding systems
- Address short term parking needs to serve:
  - Loading
  - Rideshare
  - Delivery Services
- Provide adequate bicycle parking,
   in coordination with Bike and Ped
   Master Plan

# **DOWNTOWN UPDATES**

#### INTERIM IMPROVEMENTS UPDATE

#### **Downtown Garage Power Washing**

- Garage Q (High/Alma): Completed
- Civic Center: Completed
- Garage S/L (Bryant/Lytton): November 28 through December 1
- Lot J (Cowper/Webster): January 2 through January 4 & January 10 through January 11
- Garage R (Alma/High): January 30 through February 1

Continued enhanced cleaning and trash pickup

Lytton Plaza cleanup

#### **INTERIM IMPROVEMENTS UPDATE**

#### **News racks**

- 62 broken/unused removed in September
- 119 boxes remain
  - Staff to contact publishers/vendors regarding restoring, replacing or removing boxes
  - Consolidate news racks on each block
  - Work anticipated to be completed in Spring 2025

#### **Curb ramps**

Upgrade of downtown curb ramps underway

# PROJECT TIMELINE AND NEXT STEPS

#### **TENTATIVE PROJECT TIMELINE**

2024 2025 -2029

#### March-June

June - December

**Winter 2025 – Spring 2026** 

Summer 2026 – Summer 2029

- Confirm vision/goals
- Revised concepts and ROM costs

Meetings: Retail Committee, March, April Council, June

- Preferred concept
- Implementation plan (funding, phasing, etc.)

Meetings:
Stakeholder Group,
September and November
Council, December

- Preliminary design, streetscape plan & cost estimate
- Environmental assessment (CEQA)
- Engineer's report for assessment district planning
- City to retain a municipal bond counsel for Assessment District planning, election.

Meetings:

Retail Committee Stakeholder Group BCCs

Council

- Final design, bid and award – 1 year
- Construction 2 years

#### **NEXT STEPS**

- Refine concept plan and budget based upon stakeholder working group and community feedback
- Present preferred concept design to City Council in December
- Assessment district feasibility and environmental analysis for approved design (winter 2025 - spring 2026)
- Design and construction (summer 2026 summer 2029)

# **QUESTIONS/COMMENTS**

# Thank you!
