

**Palo Alto Airport Long Range Facilities and Sustainability Plan
Project Advisory Committee Public Meeting #2
August 24, 2023**

Meeting	Location	Date	Time
Palo Alto Airport Long Range Facilities & Sustainability Plan Public Meeting #2	Bloomhouse 2555 Pulgas Avenue East Palo Alto, CA 94303	8/24/2023	6:00 PM-8:00 PM

Attendees:

Public Meeting #2 had a total of approximately 16 attendees, comprising of around 9 individuals from the public, 7 staff members (including City and consultant members).

Meeting Format:

The meeting was an open house format with informational boards attended by Airport and Consultant staff. An introductory presentation was presented at 6:30 PM. Comment cards and a QR code to scan and provide online comments were provided. Additionally, a visioning activity was included as a station where attendees could provide comments about their long-term goals and visions for the Airport. A copy of the boards and presentation are attached.

Public Meeting Comment Topics:

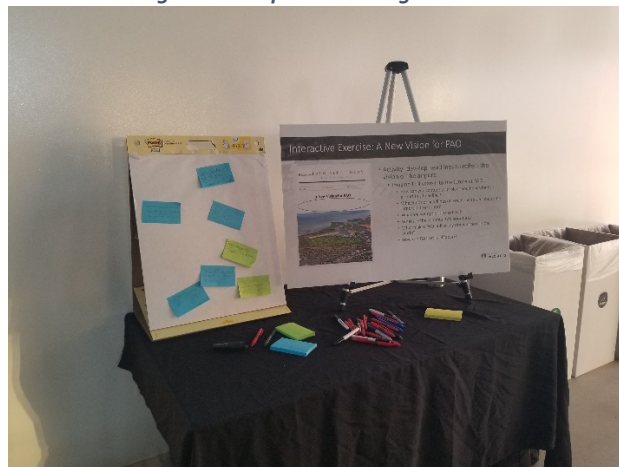

The following were notes taken by Consultant staff throughout the meeting or summarized from comment cards and the online comment form. Copies of comment cards collected are attached for reference.

- Project website needs more information. Public comments submitted to date should be included in this.
- Concern for noise impacts for electric aircraft.
- Concern for community health impacts from leaded aviation fuel.
- Desire for there to be another Public Meeting for the LRFSP held in East Palo Alto.

Visioning Headlines (developed per the Visioning Exercise):

- Prominent taxiway markers
- Covered tiedowns with solar
- Palo Alto Airport safest in the Country!
- Solar Panels on all hangars
- Covered tie-downs
- Palo Alto Airport creates regional solution for air travel
- New & Remodeled Hangars
- Solar Panels on Aircraft Shade Structures
- New Terminal on Embarcadero
- More Hangars & Fewer Tie-Down
