

RINCONADA POOL FAMILY CHANGING ROOMS

Community Informational
Meeting

JUNE 10, 2026

www.paloalto.gov

AGENDA

- Welcome and Introductions
 - Community Services Department (CSD) and Public Works Engineering (PWE)
- Project History
- Design Overview
- Project Timeline
- Q&A

PROJECT HISTORY

- The discussion of having a changing room for families with children with disabilities began in 2019.
- Policy is that no child over the age of six is permitted in the opposite gender locker room due to lack of privacy.
- Individuals age 6+ who have a caregiver of the opposite gender cannot access a locker room.
- Project delayed due to COVID, budget reductions, and staffing constraints.

PROJECT HISTORY

We are adding accessible family changing rooms at the pool so families who need privacy or amenities to change and use the toilet have more accessible facilities. This is especially important for parents who have a child that is too old to enter the opposite gender locker room but needs the parent's assistance.

SCOPE OF WORK

Conversion of storage and pool operation space into two family changing rooms

SITE WORK

- ADA parking stall on Hopkins
- ADA compliant asphalt pathway from Hopkins Avenue to the changing rooms

FRONT OFFICE

- New casework for service counter
- Striped pathway from access gate to door leading to the pool deck

POOL DECK

- ADA compliant pathway from front office to the changing rooms
- New railing and striping delineating ADA pathway
- New access gate along existing fence for pathway access

FAMILY CHANGING ROOMS

- Two identical accessible family changing rooms converted from office and storage space
- Motorized changing table
- Pre-fabricated shower
- Retractable privacy curtain
- ADA bench

PROJECT TIMELINE

- Design Completion – Fall 2026
- Procurement – Fall 2026 to Spring 2027
- Council Approval – Spring 2027
- Construction – Late Summer 2027 to Early 2028
