

Induction cooktops and ranges have become an easy choice in today's kitchens for their speed, cleanliness and safe operation. And thanks to our rebates, they're also more affordable. Plus try one out from the Palo Alto Library!

THE BENEFITS OF INDUCTION COOKING

FASTER

Precise temperature control allows for consistent cooking results

90% of the energy used is transferred directly to the cooking process compared to 40% from a gas stove

Boil water nearly twice as fast with an induction cooktop

CLEANER

Flat, smooth cooking surfaces mean spills and messes can be wiped up easily without the need for scrubbing

Improves indoor air quality versus cooking with a gas stove

SAFER

No open flame or hot coils means that your kitchen stays cooler

Burners hold residual heat which transfers directly to the cookware, so no energy is lost

Many induction cooktops have auto shut-off safety features

NOW YOU'RE COOKING!

Apply at the Rebate Hub at paloalto.gov/CookElectric or contact us at **(650) 713-3411**.

You can also check out an induction cooktop kit from a Palo Alto library.
