CHECK YOUR ENERGY AND WATER USAGE.

EVERY MONTH.
EVERY DAY.
EVERY HOUR.

City of Palo Alto Utilities (CPAU) customers can now view their energy usage on MyCPAU and water usage data on WaterSmart.

With Advanced Metering Infrastructure (AMI) technology, customers can view and monitor detailed energy and water usage in monthly, daily, and hourly intervals. Electric usage is displayed in 15-minute intervals. Access to this data can help you make accurate and informed decisions about your utility consumption.

TRACK YOUR ENERGY AND WATER USE
See when your energy and water usage peaks and adjust accordingly.

PREVENT BILL SURPRISES
Stay informed about your energy and water consumption to avoid unexpected charges.

IDENTIFY ENERGY- AND WATER-SAVING OPPORTUNITIES
Pinpoint times of high consumption and make changes to lower costs.

TRACK YOUR WATER USE ON WATERSMART
Sign up for custom water use notifications to help you identify and fix leaks quickly!

This utility data can be helpful for understanding energy and water usage patterns, spotting potential inefficiencies, and even help you lower your utilities bill. Whether you want to improve energy and water use efficiency or stay more informed about utility consumption habits, near real-time data can help provide valuable insights.
