## COMMERCIAL REROOF (CHANGE IN MATERIALS) SUBMITTAL CHECKLIST

**If the project involves removing, relocating, replacing, or altering rooftop equipment such as solar installations, air conditioners, or heating equipment, including related systems, you are required to obtain additional electrical or mechanical sub-trade permits. Associated fees will apply.**

**APPLICABLE CODES:** 2022 California Building Standards Code as adopted by PAMC Chapter 15.04 & 16

This submittal checklist outlines the minimum requirements to help prepare you for a complete permit submission. Each project is unique and additional requirements may be needed. All applications, plans, and supporting documents are to be submitted electronically through our Palo Alto Online Permitting System (OPS). Please see our WEBSITE for instructions on how to submit your application.

**Please submit ONLY TWO TOTAL FILES in PDF FORMAT.** Files are titled C#\_"PROJECT ADDRESS"\_DOCS, C#\_"PROJECT ADDRESS"\_PLAN, etc. C# refers to the cycle number of review. Initial submittals are C1, for Cycle 1.

### PLAN File ( titled C#\_"Project Street Address"\_PLAN.pdf")

- Cover Sheet/Title Page
- Planning Entitlement Approval Letter and Conditions of Approval, if applicable
- Architectural Plans
  - Site Plan with all buildings shown and key-in the building/roof areas to be reroof
  - Roof plan showing roof equipment, roof screen, roof access, solar panels, roof slope and flow direction, roofing materials (see below for additional information to be included on plans), gutter, primary and secondary overflow drain, and other pertinent information
- Roofing Material Information (existing and new)
  - Roofing material (including brand name and product number)
  - Number of "squares" of roofing materials
  - Weight of roofing material
  - Roof Fire Classification (A, B, or C)
  - Underlayment materials
  - Sheathing thickness
  - Roof slope, if altered
- Structural Plans
  - Roof framing plan may be required if new roofing material or reroof results in an overall roofing weight of 7 pounds per square foot.
- Title 24 Energy Compliance Form(s)

### DOCS File ( titled C#\_"Project Street Address"\_DOCS.pdf")

- Roofing Materials / Specifications
- Structural calculations may be required if the proposed roofing materials is heavier than the replaced roofing materials
- [Special Inspection & Testing Agreement Form \(not required at time of submission but before issuance\)](#)
